

Care model: Short-Term model for clinical service provision tied to minimum incarceration stay to develop guidance on best practices for facilities

In recognition of the significant number of pretrial individuals, California has developed guidelines for short-term stays

Time after Medicaid eligibility determination

Service	4 hours	8 hours	24 hours	48 hours	7 days	14 days	30 days
Case Management					Assign Case Manager	Warm handoff required	Community Referrals
MAT	Assess MAT needs at intake	Deliver MAT as needed		High-level BH screening	In-depth BH screening		
Medications		Deliver meds	Meds in hand at release				
Labs & Radiology							Administer as needed
Physical & BH Clinical Consults					Identify community BH provider		Schedule in-reach consults
DME						DME in-hand at release	
Data-sharing	Confirm meds w/ community provider				Care plan
